

TIP 160 Smoothbore Nozzle

Overview

The HEN® TIP 160 smoothbore nozzle delivers a tight, solid stream, maximizing reach and penetration for effective fire suppression at 345 kPa. The TIP 160 should be paired with a HYDRO® 138 or HYDRO FORCE™ 138 shutoff for maximum efficiency and knockdown power.

Specifications

	IMPERIAL	METRIC
Target Flow	160 GPM	650 LPM*
Target Pressure	50 PSI	345 kPa
Weight	1.1 lb	0.50 kg
Length	6.0 in.	152.4 mm
Width	2.7 in.	69 mm

Features

- Solid tight pattern with large water droplets
- Works with ALL 1.75" hoselines
- 606 LPM at 345 kPa nozzle pressure
- Hard-coat anodized aluminum construction
- Available with 1.5" NH, 1.5" NPSH threads
- NFPA 1960/1964 compliant
- 5-Year Warranty

Flow Rates

PRESSURE KPA (PSI)	FLOW RATE LPM (GPM)
207 (30)	471 (125)
276 (40)	544 (144)
345 (50)	609 (161)
414 (60)	667 (176)
483 (70)	720 (190)
